

It's Easy!

The Snowboard Outreach Society makes it easy to get involved and help underprivileged youth get back on track.

SOS runs a series of snowboarding events each season that anyone can compete in. Events range from **Slopstyle** to **BorderX** and even **Half Pipe**. SOS is always growing and is currently in seven states so visit: www.sosoutreach.org for more information and check the full list of mountains on the back of this brochure!

Through Events like these, SOS raises money to sponsor kids from inner city environments.

SOS | Snowboard
Outreach
Society

SOS is a youth development program that helps kids from all over the US learn fundamental skills such as courage, discipline, integrity, wisdom and compassion. Using snowboarding and mentorship it inspires youth to succeed and grow.

Since it was founded in 1993, SOS has spread to 7 states including:

- Colorado
- Washington
- Oregon
- New York
- New Hampshire
- New Mexico
- California

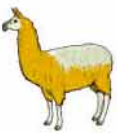

The program for helping youth has two parts.

- **Learn To Ride:** a basic five day introduction to snowboarding which exposes youth to the outdoors.
- **SOS University:** a four year program which incorporates snowboarding but focuses on long term development and scholarship.

integrity

SOS Sherpa

If you want to give a little extra, get involved as a Sherpa! Sherpas are the mentors who work directly with kids in the Learn To Ride and SOS University programs.

“pointing kids in the right direction”

Sherpas are the people making the real difference at SOS. Each Sherpa is trained and given a unique role to work closely with a small group of kids. During the 2003/04 season over 450 Sherpas were trained by SOS creating a student/teacher ratio of two to one!
